Chief, Manufacturing Sectors Branch, D/I

Requirements on Soviet Foreign Trade Officials visiting US.

1. Requirements concerning the visits of certain Soviet foreign officials and the background on their activities are attached.
2. These requirements were coordinated with I/PE.
3. At the last moment it was learned that an additional visit will be made by one or more Soviet officials to Poughkeepsie, New York. Our best guess is that this is connected with the IBM installation there. We are, of course, also interested in this development.
